

2023. 7. / 한-EU 연구협력센터

EU Research Career

유럽 주요국 FUNDING & JOB 관련 공고정보

한-EU 연구협력센터(KERC)는 국내 신진연구자들의 유럽 내 연구경력 개발 지원을 위해 유럽 전역의 연구경력개발 관련 정보를 모니터링/분석하여 국내 수요에 부합하는 맞춤 정보를 제공하고 있습니다.

이번 호는 23년 7월~12월 마감되는 공고들을 안내해 드립니다.

목 차 (Contents)

- #1 자연과학(Natural Science)
- #2 사회과학(Social Science)
- #3 PHD Position

Part 1

자연과학분야

EU Research Career

Title	Organisation (Country)	Offer Description	Deadline	Link
<p>PostDoctoral Research Scientist</p>	<p>CNRS (France)</p>	<p>Experience in high-throughput sequencing data analysis (familiarity with the UNIX terminal environment; management of big data on clusters; running of Perl & Python scripts) and statistical tools (multivariate analyses in combination with supervised and non-supervised clustering methods). Background in microbial ecology and marine biogeochemistry is preferred, but not requested.</p>	<p>23-07-20</p>	<p><u>More information</u></p>
<p>Postdoctoral Fellow in Experimental Nanoscience: Plasmon-Assisted Chemistry</p>	<p>NORWEGIAN UNIVERSITY OF SCIENCE & TECHNOLOGY – NTNU (Norway)</p>	<p>The fellow will join a larger team of experimentalists and theorists, investigating how plasmonic structures and optical cavities may be used to control the chemical behavior of molecules. The project will be mainly experimentally focused, and will involve the fabrication and chemical application of plasmonic arrays.</p>	<p>23-08-09</p>	<p><u>More information</u></p>

EU Research Career

Title	Organisation (Country)	Offer Description	Deadline	Link
<p>Postdoctoral Position in Carbon-based Quantum Materials and Devices (a)</p>	<p>Empa (Switzerland)</p>	<p>The postdoc's role will be to act as a 'bridge' between the two laboratories, and to focus on device integration and quantum transport of GNRs. He/she will work on developing strategies to transfer GNRs from their metallic growth substrate to devices, by developing ultra-high vacuum dry-transfer stamping methods.</p>	<p>23-09-27</p>	<p><u>More information</u></p>
<p>Postdoc position: NWO Sublife project "Subsurface life at deep-sea hydrothermal vents"</p>	<p>Royal Netherlands Institute for Sea Research (NIOZ) (Netherlands)</p>	<p>The ideal candidate has a PhD in biology or a related science, and experience with population genetics and taxonomy. Given the interdisciplinary nature of the work, it is important that the candidate is open and communicative to facilitate interactions with other members of the project team and the project teams of related projects.</p>	<p>23-08-27</p>	<p><u>More Information</u></p>

EU Research Career

Title	Organisation (Country)	Offer Description	Deadline	Link
<p>Post-doc position 3Large-Scale Density Systems: Modeling and Control for Electromobility Applications"</p>	<p>CNRS-Grenoble Images Parole Signal Automatique (France)</p>	<p>Current research in control theory is focused on utilizing the dynamics of large networks, such as traffic and transportation infrastructure, multi-agent systems, epidemic spreading, and electrification of vehicles, among others. Dealing with a high number of state variables that describe the nodes or edges of these networks.</p>	<p>23-09-19</p>	<p><u>More information</u></p>
<p>Two postdoc positions in development of the HADDOCK integrative modelling platform (1.0 FTE)</p>	<p>Utrecht University (Netherlands)</p>	<p>In this position you will work at the interface of structural biology, computational science and software development. With your ambition and creativity you will drive new developments, solve research questions and interact with our user community.</p>	<p>23-09-01</p>	<p><u>More information</u></p>

Part 2

사회과학분야

Research and Teaching Assistants

Title	Organisation (Country)	Offer Description	Deadline	Link
<p>Postdoc in Film studies with a focus on Scandinavian film culture</p>	<p>Lunds universitet (Sweden)</p>	<p>Your doctoral degree must be completed in the subject of Film Studies or within subject deemed equivalent. Good knowledge of the English language and one or more of the Scandinavian languages is a basic requirement.</p>	<p>23-09-14</p>	<p><u>More information</u></p>
<p>Postdoc AI Ethics</p>	<p>Delft University of Technology (TU Delft) (Netherlands)</p>	<p>As an Assistant or Associate Professor at the Delft Center for Systems and Control (DCSC) you will conduct fundamental research geared to new signal processing and control methods for processing, analyzing, mining, and interpreting health data.</p>	<p>23-08-25</p>	<p><u>More information</u></p>

Research and Teaching Assistants

Title	Organisation (Country)	Offer Description	Deadline	Link
Postdocs and PhD students for the new Chair of Personality Psychology	University of Greifswald (Germany)	We are looking for Postdocs / PhD students to join the new lab Personality Psychology & Psychological Assessment at University of Greifswald, Germany. Candidates interested in personality / well-being, life events / daily events, and (intensive) longitudinal data (e.g. ambulatory assessment) with strong methodological skills and a good command of English (German skills are an asset but not required) are invited to apply.	23-07-09	<u>More information</u>

Part 3

PhD Position

PhD Position

Title	Organisation (Country)	Offer Description	Deadline	Link
PhD Position- Circular Economy and Climate Change Mitigation	NTNU Norwegian University of Science and Technology (Norway)	The main qualification requirement is that you have completed a Master's degree in Industrial Ecology, Circular Economy, Energy or Economic Modeling, Computer Science, Applied Maths or physics or equivalent Good programming skills in one or several languages (e.g., Python, MATLAB, Fortran, C++)	23-07-31	<u>More information</u>
PhD Position- Chemical synthesis, Organic chemistry	Aix-Marseille Université (France)	We are looking for motivated candidates to take up a PhD position developing new synthetic schemes and methods for the preparation of a library of innovating molecules for energy storage applications to address the challenging problems of aqueous organic redox flow batteries.	23-10-31	<u>More information</u>

PhD Position

Title	Organisation (Country)	Offer Description	Deadline	Link
PhD positions- Department of Information Technology	Ghent University (Belgium)	<p>You need to hold (or will obtain in near future) a relevant master's degree e.g., Master of Science in Electrical Engineering or Electronics Engineering or Photonics, Researchers must have not been awarded a doctoral degree.</p>	23-12-31	<u>More information</u>
PhD in Ancient Genomics/Proteomics at the Globe Institute	University of Copenhagen (Denmark)	<p>The position is a 36-month fully-funded PhD fellowship that will enable you to study for a double degree doctorate at the Universities of Copenhagen (DK) and York (UK). You will be primarily based at the University of Copenhagen as the main host, but as you will be expected to spend a minimum of 12 months at the University of York as part of your double degree as well as a possible additional short period.</p>	23-07-13	<u>More information</u>
