

2023년 12월 / 한-EU 연구협력센터

EU Research Career

유럽 주요국 FUNDING & JOB 관련 공고정보

한-EU 연구협력센터(KERC)는 국내 신진연구자들의 유럽 내 연구경력 개발 지원을 위해 유럽 전역의 연구경력개발 관련 정보를 모니터링/분석하여 국내 수요에 부합하는 맞춤 정보를 제공하고 있습니다. 이번 호는 23년 12월~24년 2월 마감되는 공고들을 안내해 드립니다.

목 차 (Contents)

1. 자연과학 분야 (Natural Science)
2. 인문사회 분야 (Social Sciences and Humanities)
3. PhD Positions

01

Title	Organisation (Country)	Offer Description	Deadline	Link
Postdoctoral Researcher (f/m/x) in Circuit Neuroscience	Deutsches Zentrum für Neurodegenerative Erkrankungen e. V. (DZNE) (Germany)	<ul style="list-style-type: none"> • Enthusiasm for systems neuroscience research • PhD in natural/life sciences or related fields (or in the final stages of submitting the thesis) • Essential: prior experience with in vivo functional imaging or electrophysiology; good data analysis and programming skills (e.g. Python, Matlab); collaborative mindset, good communication skills and English language proficiency • Beneficial: prior experience with mouse behaviour, rodent models of neurodegenerative disorders, and/or transcriptomics 	23-12-31	More information
Biobank and laboratory technician	Mimark Diagnostics sl (Spain)	We are looking for a highly organized and adaptable laboratory and biobank technician with knowledge of biological sample handling and biobanking to provide technical support for the development and maintenance of MiMARK's private collection of gynecological samples	23-12-31	More information

01

Title	Organisation (Country)	Offer Description	Deadline	Link
Assistant Professor of Wood Composite Materials Technology	Tallinn University of Technology (Estonia)	<ul style="list-style-type: none"> • PhD degree (or equivalent) in one of the following fields: wood science and technology, wood chemistry, wood composite materials, composite materials, polymer materials, material science; • maximum 10 years from earning the PhD degree (not including maternal or paternal leave, or mandatory military service); • international professional or research experience (including post-doctoral research) 	24-1-31	More information
Post-Doc Position in Transdisciplinary Approach to Addressing Pollution	Helmholtz-Zentrum Potsdam Deutsches GeoForschungsZentrum (Germany)	<ul style="list-style-type: none"> • Master's degree and a PhD degree in Atmospheric Sciences, Environmental Sciences, or related discipline • Robust knowledge of air pollution measurement techniques • Data analysis skills: R or Python required. Knowledge of other programming (e.g., SQL) and data analysis software beneficial 	23-12-20	More information

01

Title	Organisation (Country)	Offer Description	Deadline	Link
Post-doctoral position on simulating gauge theories	ICFO - The Institute of Photonic Sciences (Spain)	<ul style="list-style-type: none"> Candidates must hold, at the time of contract initiation, an internationally-recognized Ph.D.-equivalent degree (or evidence of its completion in the nearest future) in Physics or closely related fields. The candidate should have a proven track record of experimental atomic, molecular and optical physics. Experience with Rydberg atoms and/or ultracold quantum gases is strongly desirable. 	24-2-10	More information
Post Doctoral Researcher in Continuum robot design optimization for surgery	Université de Strasbourg (France)	<ul style="list-style-type: none"> The candidate should ideally hold a Ph.D. in Mechanical engineering, Mechatronics, Robotics, or a similar field. Knowledge about continuum robot design and/or mechanics-based modeling is a plus. Strong analytical skills, as well as some previous experience with coding in Matlab, Python or C++ are required. 	24-1-1	More information

인문사회과학 분야
(Social Sciences and Humanities)

02

Title	Organisation (Country)	Offer Description	Deadline	Link
Postdoctoral researcher on development of neural multimodal speech processing	Tilburg University (Netherlands)	<ul style="list-style-type: none"> a (nearly) completed PhD and an excellent (early career) track record in publishing research findings in recognized scientific journals in the field strong enthusiasm for the topics of study: brain and language development, electrophysiology, multimodality, individual differences ample experience with experimental design and statistical analyses 	24-1-8	More information
a postdoctoral fellow in the social history of material infrastructures-IISG	Royal Netherlands Academy of Arts and Sciences (KNAW) (Netherlands)	<ul style="list-style-type: none"> PhD in the field of Chinese or East Asian history, archaeology, or related field in the humanities; historical research skills and familiarity with local historical Chinese source materials is seen as an advantage; advanced reading skills in classical Chinese; a strong interest in and ideally experience with digital research methods including text mining, GIS, network analysis, and machine learning; 	24-1-7	More information

03

Title	Organisation (Country)	Offer Description	Deadline	Link
PhD position in "Contracts for Distributed ML-Intensive Systems"	IMT Atlantique (France)	The topic straddles the domains of software engineering, machine learning as well as data privacy and security. The development of language and tool support for the proposed contracts also requires expertise in programming languages, libraries and corresponding programming and execution mechanisms. In conjunction with the targeted application domains, industrial automation and healthcare processes, the PhD thesis presents many opportunities for interdisciplinary research.	24-1-31	More information
PhD Candidate within Dynamic Graph Analytics	NTNU Norwegian University of Science and Technology (Norway)	<ul style="list-style-type: none"> You must have a professionally relevant background in algorithms or machine learning, with a research-oriented master's thesis. Good programming skills. Good written and oral English language skills. Your education must correspond to a five-year Norwegian degree program, where 120 credits are obtained at master's level. 	24-1-15	More information
