# INDUSTRIAL LIAISON NETWORK

[www.ugent.be/en/industry](http://www.ugent.be/en/industry)

Ghent University wants to facilitate the commercial application of its research results. For its liaison with industry, UGent uses a network of specialized business development centers backed by a central Technology Transfer Office.

More than 20 business development centers group complementary research departments by application area or domain of research expertise. Key technology transfer activities include industrial collaboration programs, IP licensing and spin-off creation.
