

# How to apply for MSCA PF

20 May 2025

Dr. Tomasz Wierzbowski  
EURAXESS Korea Representative

# About the European Union

- the European Union (EU) has long emphasized the need for innovation as a vehicle for promoting stable and sustainable economic development and enabling a quantum leap in development to allow everybody a better life.
- With just 7% of the world population, the European Union takes up 20% of the global R&D expenditure, 27% of patent applications, and 32% of all high-quality scientific publications.
- The wealthiest marketplace in the world
- Controller of one of the two leading international currencies (Euro)
- The biggest trading power in the world
- The biggest market for mergers and acquisitions
- The biggest source of foreign direct investments
- The biggest donor of official development assistance

# Toward Horizon Europe

- Since 1984, European Community research and technological development activities have been defined and implemented by a series of **Framework Programmes** for Research and Technological Development (Framework Programmes, FP, or FP1-FP9).
- The FPs have been the main financial tools through which the EU supports research and development activities covering almost all scientific disciplines. FPs are proposed by the European Commission and adopted by Council and the European Parliament following a co-decision procedure. The budget for FPs started with 3.8 billion Euro for FP1 and has increased ever since to **95.5 billion Euro for Horizon Europe (FP9)**
- FP8, **Horizon 2020**, ran from 2014–2020 and provided an estimated 80 billion Euro of funding for research and innovation projects through open and competitive calls for proposals
- The current FP, Horizon Europe or FP9, focuses on **improving the objectives** in the previous framework, H2020, by supporting a broad range of member state science and research projects
- Horizon Europe was proposed by the European Commission on June 7, 2018.
- Further development of the program was constrained by the COVID-19 outbreak and budget reduction, but the agreement was finally reached at the end of 2020.

# Horizon Europe

- Horizon Europe is the most ambitious program for research and innovation ever implemented
- In the years 2021-2027 Horizon Europe's beneficiaries will receive 95.5 billion Euro. The overall budget is 30% bigger compared to Horizon 2020
- The aim of this funding program is to address and solve the pending societal issues with a special focus on human resources, industrial modernization, infrastructure, and inter-regional collaboration
- The goal is also for Europe to transform science leadership into worldwide leadership in entrepreneurship and innovation by 2027
- Consortia formed of public-private partnerships are the main beneficiaries of this funding scheme (individuals can also apply for certain programs)
- The complex funding structure of Horizon Europe is organized similarly to the previous Framework Programmes and is composed of three pillars: Excellent Science; Global Challenges and European Industrial Competitiveness; and Innovative Europe.

# Structure of Horizon Europe

# MSCA – New Names

## **MSCA Doctoral Networks (DN)**

- formally Innovative Training Networks (ITN)

## **MSCA Postdoctoral Fellowships (FP)**

- Formally Individual Fellowships (IF)

## **MSCA Staff Exchanges (SE)**

- Formally Research and Innovation Staff Exchange (RISE)

## **MSCA Co-funding of regional, national and international programmes (COFUND)**

- Formally Co-funding of regional, national and international programmes (COFUND)

## **MSCA and Citizens**

- Formally Researchers Night (NIGHT)

# Marie Skłodowska-Curie Actions (MSCA)

- Supports researchers at all career stages and across all research disciplines
- Encourage transnational, intersectoral and interdisciplinary mobility
- Enables research-focused organisations to host talented foreign researchers and to create strategic partnerships with leading institutions worldwide.
- Equip researchers with the necessary skills and experience to support long-term employability
- Supports fundamental research to market take-up and innovation services.
- Fields are chosen freely by the applicants (individuals and/or organisations) in a fully 'bottom-up' manner.

# MSCA – Postdoctoral Fellowship (PF)

- Enhance the creative and innovative potential of post-doctoral researchers
  - ❖ **European Fellowships:** researchers of any nationality moving within or coming to Europe (12-24 months)
  - ❖ **Global Fellowships:** European nationals or long-term residents in Europe to do research abroad (24-36 months [12-24 outgoing & 12 months mandatory return phase in Europe])
- Secondments: worldwide up to 1/3 of the fellowship duration (outgoing phase for Global Fellowships)
- Continue to fund all research areas including research funded by EURATOM
- Fellows can be recruited in the non-academic sector
- Optional additional placement of up to 6 months in a non-academic European organization, at the end of the fellowship – must be integral part of the proposal
- Host beneficiary must be in an EU MS or AC, for Global Fellowships out going host must be located in a TC
- Resubmission restrictions (applied from 2022)

# MSCA – Postdoctoral Fellowship – Eligibility

## Host Beneficiary

- must be in an EU MS or AC, for Global Fellowships out going host must be located in a TC

## Supported Researcher must

- **be in a possession of a doctoral degree** at the date of the call deadline
  - defined as a successfully defended doctoral thesis
- at the call deadline researchers **have a maximum of 8 years full-time equivalent research experience**
  - Career breaks, working outside research, research outside of EU (for reintegrating researchers)
- may not have resided or carried out their main activity (work, studies etc.) in the country of their (main) host organisation (TC host for Global Fellowship) for more than 12 months in the 36 months immediately before the applicable reference date.

# What is the MSCA Postdoctoral Fellowship?

## Marie Skłodowska-Curie Actions

- 🇪🇺 Funded by the European Commission, the MSCA Postdoctoral Fellowships
  - To enhance their careers through international, intersectoral and mobility
  - With a focus on excellent research and training

## Types of Fellowships:

### European Fellowships

Postdoctoral research in EU Member States or Horizon Europe Associated Countries (1-2 years)

### Global Fellowships

Research in a non-European country (1-2 years) + mandatory return phase to Europe (1 year)

## Eligibility:

PhD awarded at the call deadline

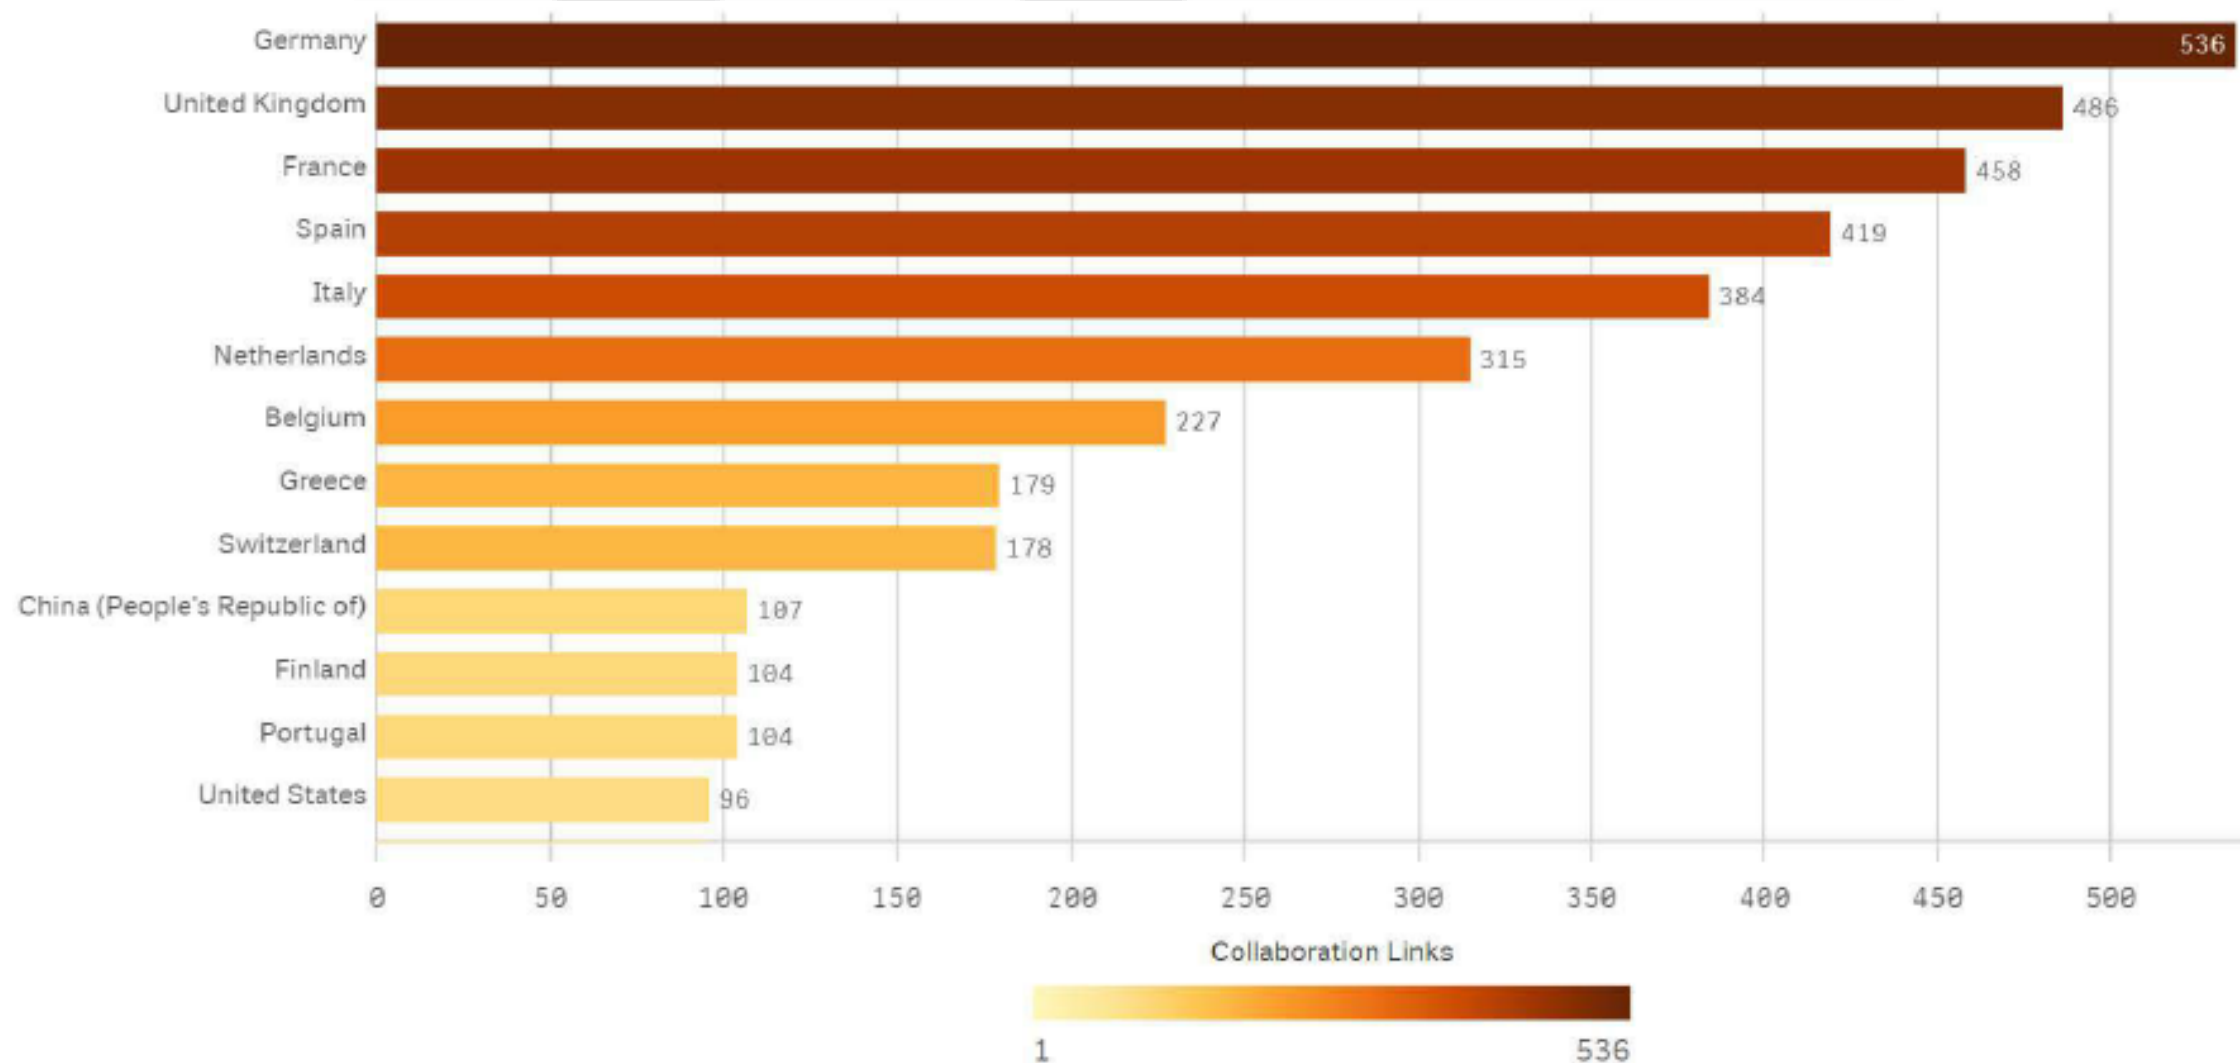

Max. 8 years of research experience after PhD (career breaks excluded)

Max. 8 years of research experience after PhD (career breaks excluded)

# Top Collaborations

# How to Apply – Step-by-Step

## 1. Find a Host Institution & Supervisor

- Look for universities or research institutes in the EU or associated countries
- Use platforms like EURAXESS or MSCA host offers portal
- 2. Develop a Proposal Together
- You and the host prepare:
- A research proposal
- Impact section (skills development, dissemination, career goals)

# Finding a Host & Writing a Competitive Proposal

- Identify a Host Institution
- **Build the Proposal Collaboratively**
- Proposal structure:
  - **Excellence:** Research objectives, methodology, supervisor's expertise
  - **Impact:** Career development, dissemination & communication plan
  - **Implementation:** Work plan, risk management, institutional support
- Get feedback early from your host and mentors.
- Use the MSCA Proposal Template from the Funding & Tenders Portal.

# Submission, Timeline & Tips for Success

## Step 3: Submission Process

- Create an account on the [EU Funding & Tenders Portal](#)
- Submit under: **MSCA Postdoctoral Fellowships (HORIZON-MSCA-202x-PF-01)**
- Attach:
  - Part A (online form)
  - Part B1 & B2 (PDFs: proposal + administrative details)

## Timeline

**Call opens:** mid-April

**Deadline:** mid-September

**Evaluation:** ~5 months

**Project start:** within ~1 year after application

# Tips for Success:

- **Tips for Success:**
- Start preparing **4–6 months before the deadline**
- Highlight mobility, training, and impact
- Use clear, simple language (non-native reviewers!)
- Check examples from previously successful proposals (many are available online)

### Discover the funding & tenders opportunities

Find out how to participate by following these key steps.

#### Find calls for proposals

Explore the available EU funding opportunities by searching for calls for proposals within your topics of interest, find partners and submit a proposal.

#### Find calls for tenders

Find business opportunities in the calls for tenders managed by EU institutions, bodies and agencies.

#### View projects and results

Browse through EU funded projects and learn about the results. Invest in opportunities and get inspired by the highlights and success stories.

#### Work as an expert

Proposals and projects need evaluations, monitoring and domain-specific knowledge advice from experts.

Albania, Bosnia & Herzegovina,  
Faroe Islands, FYROM, Island,  
Israel, Moldova, Montenegro,  
Norway, Serbia, Switzerland,  
Turkey

European  
Research Area

# EURAXESS– Researchers in Motion

- pan-European initiative backed by the European Commission that aims to support the development of the European Research Area (ERA) by addressing barriers to the mobility of researchers, and to enhance scientific collaboration between Europe and the world
- EURAXESS is supported by 43 participating countries across Europe (EU member states and countries within the Horizon Europe Associated Countries list)
- Designed as a comprehensive toolset, it provides researchers with a complete range of information and support services
- EURAXESS Korea mainly provides three services:
  - **Information services**, through its website (<https://euraxess.ec.europa.eu/worldwide/south-korea>) and social media (@EURAXESS\_Korea) where funding, job opportunities, policy developments, events and networking opportunities of interest to Korean researchers and Korean RPOs are provided in the form of a curated newsfeed, both in English and Korean languages.
  - **Events and informative and seminars**, where detailed explanation of EURAXESS services, and also European funding programmes such as Horizon Europe, European Research Council grants or Marie Skłodowska-Curie Actions

# National Contact Points

- **National Contact Points** are support structures established by Member States (MS), Associated Countries (AC) and many third countries, recognized by the European Commission (EC) to help participants to access the different EU Programme opportunities through advice, practical information, and assistance in all aspects. For Horizon Europe, there are 17 NCP different functions plus the NCP national coordinators network.

The screenshot shows the 'EU Funding & Tenders Portal' with a navigation bar including Home, Funding, Procurement, Projects & results, News & events, Work as an expert, and Guidance & documents. The breadcrumb trail is: Home > Guidance & documents > Helpdesk & support > National Contact Points for Horizon Europe. The main heading is 'National Contact Points for Horizon Europe'. Below it, a paragraph states: 'The network of National Contact Points (NCPs) is the main structure to provide guidance, practical information and assistance on all aspects of participation in Horizon Europe. NCPs are also established in many non-EU and non-associated countries ("third countries").'

- ☐ Health

WARSZAWA - Poland

**NCP Services**

In general, the following basic services are available in accordance with the [NCP Guiding Principles](#) agreed by all countries:

1. Guidance on choosing relevant Horizon Europe topics and types action
2. Advice on administrative procedures and contractual issues
3. Training and assistance on proposal writing
4. Distribution of documentation (forms, guidelines, manuals etc.)
5. Assistance in partner search

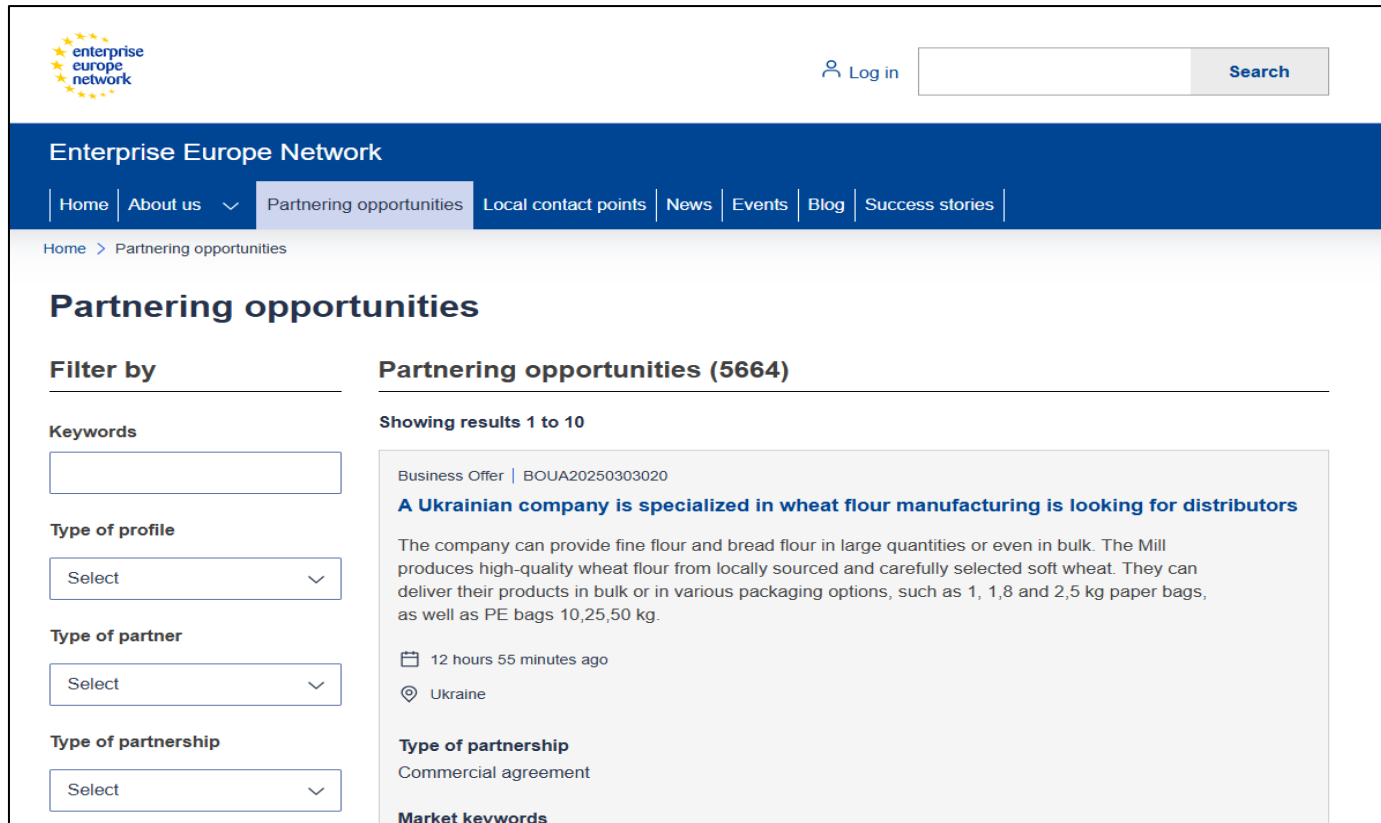

As the NCPs are national structures, the type and level of services offered may differ from country to country.

**What is the NCP network?**

NCPs are national structures established and financed by governments of the 27 EU member states and the states associated with the framework programme.

# Enterprise Europe Network

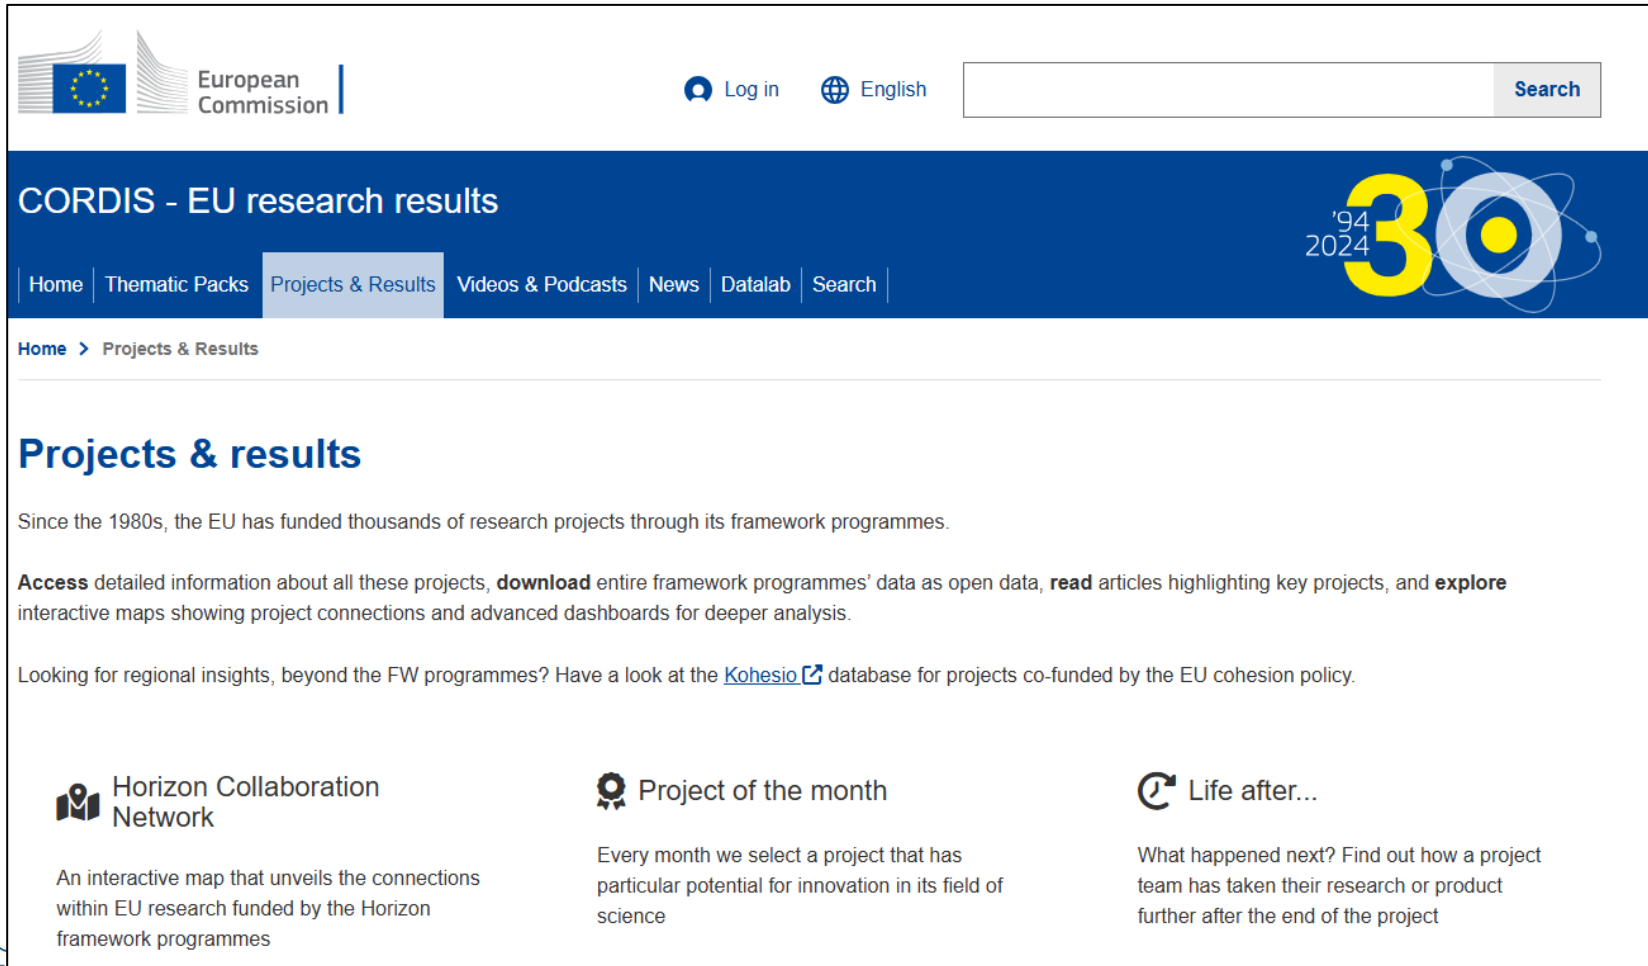

- [Enterprise Europe Network](#) Support in the search and participation in international partnerships. Experience, contacts and events to connect you with the right international partners to grow your business.

The screenshot displays the Enterprise Europe Network website interface. At the top, the logo is on the left, and a 'Log in' button with a search bar is on the right. A dark blue navigation bar contains links: Home, About us, Partnering opportunities (selected), Local contact points, News, Events, Blog, and Success stories. Below this, a breadcrumb trail shows 'Home > Partnering opportunities'. The main heading is 'Partnering opportunities'. On the left, a 'Filter by' section includes four dropdown menus: 'Keywords' (empty), 'Type of profile' (Set to 'Select'), 'Type of partner' (Set to 'Select'), and 'Type of partnership' (Set to 'Select'). The main content area is titled 'Partnering opportunities (5664)' and shows 'Showing results 1 to 10'. The first result is a 'Business Offer' with ID 'BOUA20250303020'. The title is 'A Ukrainian company is specialized in wheat flour manufacturing is looking for distributors'. The description states: 'The company can provide fine flour and bread flour in large quantities or even in bulk. The Mill produces high-quality wheat flour from locally sourced and carefully selected soft wheat. They can deliver their products in bulk or in various packaging options, such as 1, 1,8 and 2,5 kg paper bags, as well as PE bags 10,25,50 kg.' It also shows a timestamp '12 hours 55 minutes ago', a location pin for 'Ukraine', and the 'Type of partnership' as 'Commercial agreement'. At the bottom of the result card, there is a section for 'Market keywords'.

# CORDIS

- [CORDIS](#) - (Community Research and Development Information Service) is the European Commission's primary source of information on EU-funded research projects. It provides access to details about projects funded under the EU Framework Programmes for Research and Innovation, including Horizon 2020 and Horizon Europe.

The screenshot displays the CORDIS website interface. At the top, the European Commission logo is on the left, and 'Log in' and 'English' links are in the center. A search bar with a 'Search' button is on the right. Below this is a blue header with 'CORDIS - EU research results' and a '30' anniversary logo. A navigation menu includes 'Home', 'Thematic Packs', 'Projects & Results' (highlighted), 'Videos & Podcasts', 'News', 'Datalab', and 'Search'. The main content area is titled 'Projects & results' and contains text about EU-funded research projects, links to detailed information, and a mention of the Kohesio database. At the bottom, there are three featured sections: 'Horizon Collaboration Network', 'Project of the month', and 'Life after...'. The European Commission logo is also present in the bottom right corner.
